The Big picture

=> Fundamental idea of Spring :-

↳ xml approach

↳ Annotation approach

→ IOC

of Inversion of Control }  
DI

=>

(Follow Strategy DP)

Spring Beans

xml approach

xml approach

=> Configuration

course =

age = 10;

age = 20;

age ~~10~~ 20

class A

9

A()

9

y

setAge()

9

y

y

new A();

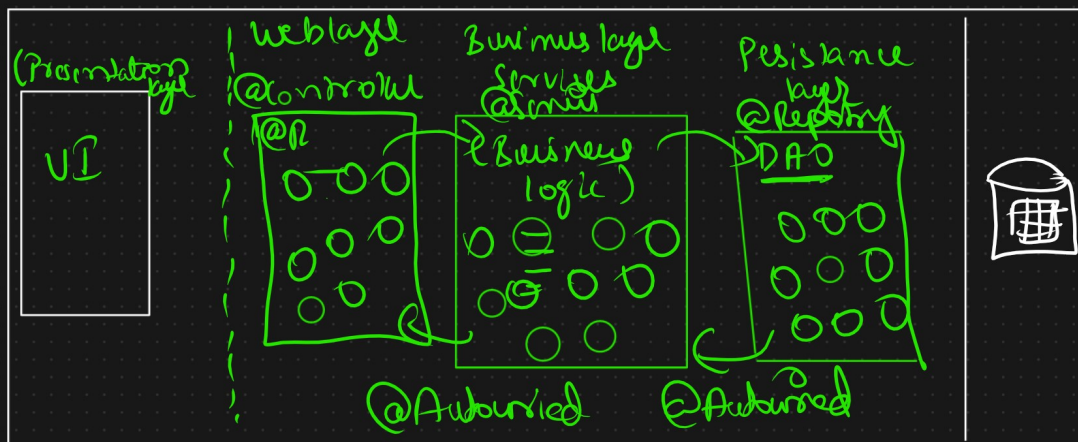

a.setAge();

# Annotation 2

spring - Annotation spring web mvc

- ⇒
- @Component
  - @Configuration
  - @Service
  - @Repository
  - @Bean
  - @Autowired
  - @Qualifier
- } @Controller  
@RestController

⇒

com.telusko  
≡ class

com.telusko main

com.telusko DAO

com.telusko

≡

○  
X

} @Component  
@Configure  
@Repository  
@Service
