

=> PagingAndSortingRepository

=> JpaRepository

=> Sorting

Pagination :-

Total 20 records

Page Size = 5

pages -> 4

page No. -> 0, 1, 2, 3

20 records

pages 1+ -> 5 pages - 2

page No -> 0, 1

5 5

=> While working with Spring Data JPA :-

{
 -> CrudRepository
 -> PagingAndSortingRepository
 -> JpaRepository
}

finder methods

custom methods -> @Query
 -> Stored Procedure

Optional -> contains object
 ↓
 IdUtil

Example -> data

{
 CrudRepository
 PagingAndSortingRepository
 JpaRepository
}

{
 finder methods
 @Query custom query
}
