

Spring DataJpa ==> CrudRepository , PagingAndSortingRepository , JpaRepository

Custom Finder methods ==> findByPropertieskeyword -- method signature

Working with @Query methods

=====

@Query(nativeSQL queries / HQL/JPQL.....)

returntype-methodname-parameters

==>SQL== SELECT * from vaccinatedetails;

==>HQL== From com.telusko.entity.VaccineDetails;

==> SQL== SELECT id, vaccinenamename, vaccinecompany from vaccinatedetails ;

==> HQL== SELECT id vaccinenamename, vaccinecompany from VaccineDetails ;

==> SQL== SELECT id, vaccinenamename, vaccinecompany from vaccinatedetails where id IN(?,?,?);

==> HQL== SELECT id vaccinenamename, vaccinecompany from VaccineDetails where id IN(:id1,:id2);
